

## **SUPPLY LIST - Natasha Isehour MasterWorksNM Workshop**

**BYOM** (Bring Your Own Materials)

**Brushes-** Bring a variety of sizes, shapes, bristles, etc

**Paint-** I personally use and teach using oil based vs water soluble. The choice is yours however.

**Two or more Surfaces-** panels, linen, canvas, it doesn't matter. Size isn't an issue, however, keep in mind that you may want to be able to paint more than one while you have the chance for some coaching. Please have your surfaces gessoed prior to arrival.

**References-** bring at least 3 different photos for reference proportionate to the surfaces you choose to bring. Full color printouts are ok, but if you have your reference on an iPad or Notebook, that's preferable.

**Turps-** please use Gamsol if possible. Otherwise please use a clean batch of odorless mineral spirits.

**Mediums-** Linseed, Liquin or whatever you are accustomed to using.

**Portable Easel-** If you have one. There will be tables for you to use as well, so a tabletop easel will work fine.

**Light-**I would suggest even a clamp on book-light if you feel you may need a little more light to work.

**Paper Towels**

**A Notebook-** you may want to keep some notes as we go!

**An Open Mind and a Great Attitude!!**

On our lunch breaks you are of course free to leave. My intention is to stay at the building and bring my lunch. That way, those of you who wish to paint through lunch can. But be sure to bring plenty of water and something to snack on either way.
